

**PRESS RELEASE**  
**USE OF UNREGISTERED VEHICLES**

**For Immediate Release**

**7<sup>th</sup> December, 2018**

The National Transport and Safety Authority (NTSA) has noted with concern existence and use of unregistered vehicles. The vehicles bear plates inscribed as **X-GK, X-KA, X-Diplomat** etc. The Authority has also noted an influx of vehicles bearing foreign number plates.

We wish to clarify that vehicles bearing numbers like X-GK are not registered and are therefore operating illegally. Operating a vehicle which is not dully registered is an offence as it violates the provisions of section 6(1A) of Traffic Act Cap.403, Laws of Kenya. Owners of these vehicles should ensure that they are dully registered before they are used on the road.

We further wish to advise owners of foreign registered vehicles currently operating in the country to ensure that they have all the necessary documentations allowing the vehicles into the Country.

Finally, the police will be enforcing the law on all vehicles found to be operating without due registration or vehicles bearing foreign registration found to be in country without necessary documents.

**DIRECTOR GENERAL**
